- Responsive Web Design
- RESTful API Development
- Database Design
- Authentication & Authorization
- Version Control (Git)
- UI/UX Design
- Problem Solving
- Team Collaboration
- Communication
- Time Management
- Critical Thinking

LANGUAGES

- Khmer (Native)
- English (Intermediate)

PROFESSIONAL SUMMARY

Computer Science student at the Royal University of Phnom Penh with a strong passion for Full Stack Web Development. Experienced in designing and developing modern web applications using React, TypeScript, Express.js, PostgreSQL, Prisma, and Tailwind CSS. Through academic and personal projects, I have built responsive frontends, RESTful APIs, database-driven systems, and AI-assisted applications. Currently seeking a software engineering internship where I can contribute, learn from experienced developers, and continue growing as a full-stack engineer.

FEATURED PROJECTS

Developer Portfolio (Personal Project)

Full Stack Developer

- Designed and developed a modern responsive portfolio website to showcase my projects, technical skills, education, certificates, and contact information.
- Implemented reusable React components, responsive layouts, smooth animations, dark mode, and project detail pages.
- Integrated EmailJS for the contact form and optimized the website with SEO best practices for improved online visibility.

Tech: React, TypeScript, Tailwind CSS, Framer Motion, EmailJS

RUPP Student Conference Platform (University Project)

Full Stack Developer

- Designed and developed a full-stack web application that helps university students discover conferences, internships, scholarships, competitions, and career opportunities.
- Built secure authentication, student profiles, event registration, and an administrative dashboard using a scalable architecture.
- Designed the PostgreSQL database with Prisma ORM and developed RESTful APIs using Express.js.

Tech: React, TypeScript, Express.js, PostgreSQL, Prisma, Tailwind CSS
